M2/MK19 mount

Description:

The Fjord Defence M2/MK19 Mount is designed to provide a stable platform for accurate firing of M2 12,7mm or MK19 40mm AGL from vehicles, marine vessels or dismounted on tripod.

The integrated recoil mitigation system reduces the peak forces acting on the platform and result in a consistent high hit probability.

Both the center of elevation and the sliding system with recoil damping are placed in the line of bore to ensure best possible stability and accuracy.

A shoulder support arm maximize controllability and firing accuracy.

The mount can be delivered with optical sight bracket, M2 trigger, Tri-rail bracket, link and brass catcher, ammo box cover and transport box.

Technical Specifications

Description:

The mount fit both HMG M2 and MK19

The mount has an integrated recoil damping system fits MK19 and HMG M2

Robust design produced in stainless steel secures durability in all environmental conditions

Accessories:- Sight bracket (HMG)
- Sight bracket ballistic compensation (MK19)
- Trigger (HMG and MK19)
- Bracket for Airburst programming and tri-rail

Specification	Data
Weight	<13 kg
Weight with dual ammo box	<17 kg
Dimensions H x L x W (mm)	237 x 522 x 357
Material	Stainless steel
Surface treatment	Black Oxidized MIL-DTL-13924
Environmental design	MIL-STD-810 G, STANAG 2895, A1-A3, B1-B2, C0-C2
