MMG MOUNT

- **OPTIMIZED FOR MEDIUM MACHINE GUNS** – Designed to provide a stable platform for accurate firing for ligth and medium machine guns.
- **INTEGRATED RECOIL DAMPENING** – Ensures reduced recoil impact for improved accuracy and control.
- **ADJUSTABLE TRAVERSE AND ELEVATION** – Precise aiming and smooth tracking of targets -40° / +60°.
- **ROBUST AND DURABLE** – Built to withstand extreme conditions and prolonged use in demanding environments.
- **LIGHTWEIGHT AND STRONG** – Engineered for easy transport and rapid deployment without compromising durability.
- **VERSATILE MOUNTING OPTIONS** – Compatible with multiple weapon platforms.
- **VEHICLE AND GROUND MOUNTING OPTIONS** – Can be integrated with tripods, swing arms, vehicle turrets, and naval applications
- **QUICK-RELEASE** – Enables fast mounting and dismounting for operational efficiency

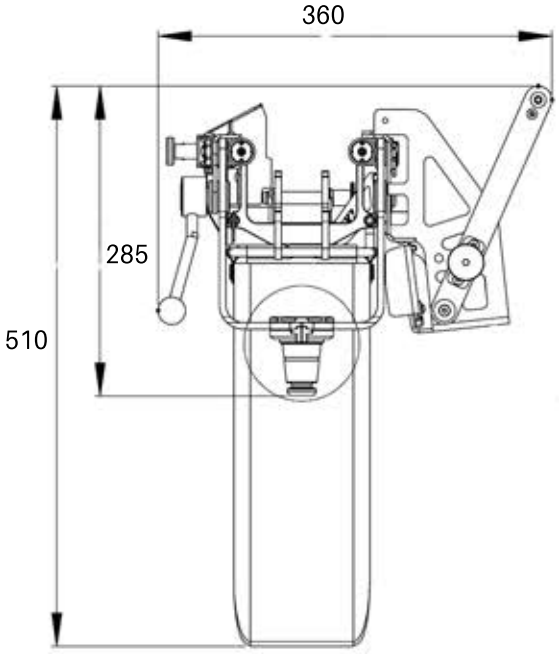
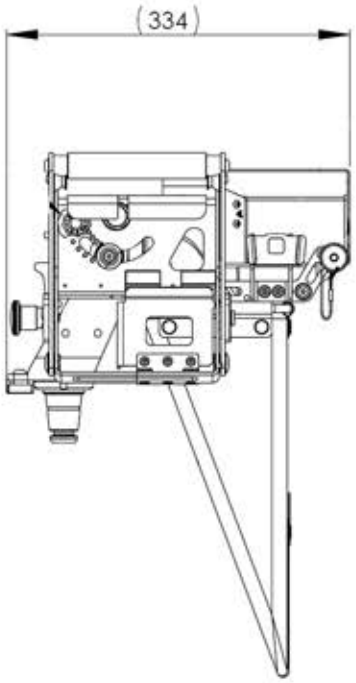
MMG MOUNT

THE FJORD DEFENCE MMG MOUNT is designed to provide a stable platform for accurate firing of ligth and medium machine guns. The integrated recoil mitigation system reduces the peak forces acting on the platform and result in a consistent high hit probability. Both the center of elevation and the sliding system with recoil damping are placed in the line of bore to ensure best possible stability and accuracy.





Dimensions Mount, L x W x H (mm):	335 x 360 x 285 (510)
Elevation range (°)	-40 to +60 (might be restricted by accessories)
Weight (kg):	< 9,0
Environmental:	Designed according to MIL-STD-810 G, STANAG 2895, A1-A3, B1-B2, C0-C2
Materials/surface treatments:	Stainless steel/black oxidized (Mil spec)
Compatible weapons	Mag58/M240, Minimi / M249 (standard versions)
Compatible ammo boxes	NLD 230 Ammunition box
Mount interface:	STANREC 4796 (standard NATO/G3 short pintle)
